REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The prior art teaches disk accessing but fails to teach the combination including the limitations of:

(Claim 1) "...for each target sector, executi9ng at least one access from the reference sector; recording a time associated with each access; and based at least in part on the times associated with the accesses, generating at least one indication of the performance of the HDD";

(Claim 8) "...executing accesses from at least one reference sector to plural target sectors arranged in tracks on the HDD: for each access, recording an access time; ordering the access times in a data structure; and using at least some access times in the data structure to output a measure of performance of the HDD";

(Claim 15) "...means for executing at least one access from a single reference sector to plural target sectors on the HDD: means for measuring actual times of at least some respective accesses; and means for using the times to determine at least one shortest access time and at least one probability of achieving the shortest access time".

Claims 2-7, 9-14, and 16-21 are allowed as being dependent upon, and thus incorporating therein, the allowable subject matter of the respective parent claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
